## Villa Review: We stayed at Villa Issi in Seminyak and fell head over heels for its stylish design & sun-soaked infinity pool

By Louise Newham

Ultra-luxe interiors, G&Ts in the sunshine and freshly cooked spring rolls by the pool? Villa Issi knows exactly how we like to spend our Bali vacays

Like any luxury lover, we are total suckers for an ultra modern, minimalist villa. Bright open spaces, geometric aesthetics, a rolling lawn and an ever-enticing infinity pool for a tropical cool down? It doesn't get much better than that. Unless of course, the villa is situated in the heart of Seminyak, just minutes from all of our fave beach clubs, cocktail bars, world-famous restaurants and designer boutiques...

Well, that's exactly what we got at **Villa Issi**: a super stylish, east-meets-west space with a whole lotta luxury – all in a walk-to-everything Seminyak location.

Ultra-luxe interiors, G&Ts in the sunshine and freshly cooked spring rolls by the pool? Villa Issi knows exactly how we like to spend our Bali vacays

Like any luxury lover, we are total suckers for an ultra modern, minimalistic villa. Bright open spaces, geometric aesthetics, a rolling lawn and an ever-enticing infinity pool for a tropical cool down? It doesn't get much better than that. Unless of course, the villa is situated in the heart of Seminyak, just minutes from all of our fave beach clubs, cocktail bars, world-famous restos and designer boutiques...

Well, that's exactly what we got at Villa Issi: a super stylish, east-meets-west space with a whole lotta luxury – all in a walk-to-everything Seminyak location.

This uber-modern villa (which is part of Elite Havens' stellar villa collection) is as dreamy as they come. With its striking designer look on the exterior, the interior also lives up to the modern-edgy vibe. But it's not only the aesthetics that are done right here – the villa is beyond comfortable and perfectly designed for a large group, thanks to four gigantic rooms all with stunning ensuites. Beauty *and* functionality? You betcha.

Two of the bedrooms sit on the ground floor in a separate annex with stunning indoor-outdoor ensuites – just perfect for a soak in the outdoor garden bathtub while you bathe away the day. Head upstairs, and the two palatial boudoirs are enormous in size and know just how to make you feel like a Queen.

Then there's the staff. The difference it makes when villa staff are on point with everything (from the service and smiles, to their grasp on English!) is immeasurable. The team here are total professionals, including Villa Issi's own personal chef who would constantly whip us up deliciously fresh spring rolls by the pool – perfect for those afternoon G&Ts in the sunshine.

Now for the bonus points. Just a short stroll from Villa Issa, you'll find world-class restaurants, trendy boutiques, hip bars, and miles of sandy beach. Yup, this villa is the real deal.

**Special Reader Offer:** Right now, the team at Elite Havens are offering 25% off if you book 90 days in advance. Nice huh? To book and explore the villa online, go to the Elite Havens website.
